DETAILED ACTION

1. Claims 1-15 are presented for examination.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The Abstract has been amended under the examiners authority, so it would include at least the minimum of 50 words, to read:

-- A new computerized methods using a database system on a global network to administer film festivals. The methods include the filmmakers inputting film information into the database, which information becomes available to selected film festivals. The system preferably handles multiple submissions to different festivals, processes applications, provides simultaneous judging of a competition, and schedules film play times at the festivals. --

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Although the prior art of record for example Dunn US patent No. 6,668,377 shows a database that stores movie or film information along with audio and video data, Kenner et al, shows a system for accessing a database containing text and audio video data over the internet. The prior art of record does not suggest and "wherein the filmmakers submit the film information necessary for entering one or more film festival into said database, such that the film festivals selected by the filmmaker can access the film information from said database" as claimed in claim 1, or "inputting film information by a plurality of filmmakers into the database; [c)] inputting film information by one or more film festivals into the database" and "wherein the film festivals submit the film information necessary for managing one or more film festivals," as specified in claim 7. Claims 2-6 and 8-15 depend from claims 1 and 7 and are thus allowable for at least the reasons given above thus claims 1-15 are distinct over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
